Why to book a family holiday to Slovenia... Ljubljana is an enchanting middle sized European city, which preserved the friendliness of a small time, is safe, clean and at the same time still possess the characteristics of a cosmopolitan city.

The city offers a number of museums, children & adults culture events, chic restaurants, trendy bars and hip clubs as well as wellness and sport facilities.

A perfect size of the city has it all on the reach of a few footsteps or bikes. Surrounded by natural beauties, with numerous adventure activity options.

Between the mountains and emerald waters lies the town of Bovec. Those seeking of excitement or who treasure the simple pleasures of home. You will be always discovering new places here! With its very own mixture of the Alpine and Adriatic climate, a region has very good snow conditions in the winter and longer summers with best choice of white water sports in Slovenia!

The largest expanses of bare open rock and the deepest gravel-bed basins of Slovenia's Julian Alps are for many the most attractive destination for a time-out in Central Europe. Lake Bled & Bohinj, with its preserved nature and clean waters, on the skirt of the Triglav national park is a perfect choice for summer or winter active holidays.

A great opportunity for hiking holidays, chill out & water fun by the lakes or other nature activities. It's one of the best ways of spending a nice spring or summer days, or skiing holidays in the winter.

The old seaport town Piran is only an hour by car from the capital of Slovenia to the warm Adriatic Sea and the Bay of Trieste. The town has preserved the medieval layout with narrow streets and compact houses, which rise in steps from the coastal lowland into the hills and give the whole area a typical Mediterranean look.

Although the Slovene coast is only forty-seven kilometers long, there are hips of things to do. Get spoiled in the wellness centres and Mediterranean gastronomy, enjoy the beach fun, or explore the misterious Karst land with caves on bikes or horsebacks.
